

The volume gap is 1,000%.

What a \$1,500 coaching session and 500 tracked posts taught about the distance between average and exceptional.

- 1 Average wait for 1 good idea. Exceptional ship 1 bad idea.
- 2 Average quit after 3 failures. Exceptional improve through 300.
- 3 Average track nothing. Exceptional track every metric.
- 4 Average hope for results. Exceptional manufacture them through volume.
