

Being Exceptional Equals Volume

A \$1,500 coaching session revealed the only real gap between average and exceptional creators.

1

1: Average wait for 1 good idea. Exceptional ship 1 bad idea to learn.

2

2: Average quit after 3 failures. Exceptional improve through 300 failures.

3

3: The effort gap is not 10% more. It is closer to 1,000% more.

4

4: Track everything. \$1m+ per year followed.
